I can do my own interviews and have kids do some as that program fleshes out. “The STAR Universe or Theatre & Film”? First episode will be “What’s college theatre like?” Interviewing a handful of SJSU graduates, I’ve got some interest. Other ideas: interviewing someone who did wardrobe for Hamilton in SF and Puerto Rico (I’d probably be able to nail that one down,) one about college film, interviewing a set designer, a director, a theatre activist, etc. Questions will be aimed towards kids and teens who may be curious about theatre... things like “what does a day as a \_\_\_ look like?” “When did you start in theatre/film?” “What is your advice to kids in theatre/film?”
